

Fact Sheet

Botsford Hospital, located on Grand River Avenue just west of Eight Mile in Farmington Hills, was founded in 1965. An independent 330-bed community teaching

hospital, Botsford is committed to offering an array of high quality health care and related services.

The main campus includes the hospital—offering both inpatient and outpatient services and diagnostic testing— numerous physician offices and an outpatient pharmacy. Botsford Hospital also has a variety of offsite locations in neighboring communities.

A nationally recognized teaching facility, the hospital is part of the Statewide Campus System for the Michigan State University College of Osteopathic Medicine. Botsford's Graduate Medical Education encompasses a full range of externships, residencies and fellowships in 19 specialties and subspecialties.
