Medical Education

Botsford Hospital, a nationally recognized teaching facility is part of the Statewide Campus System for the Michigan State University College of Osteopathic Medicine. Botsford's Graduate Medical Education encompasses a full range of externships, traditional, special emphasis and track internships, residencies, and fellowships in 19 specialties and subspecialties.

The Botsford Foundation

The Botsford Foundation works to solicit philanthropic support for the services and programs that advance and actualize health care to Botsford communities. As the responsible steward for charitable contributions, the foundation acts to assure and fulfill the spirit of trust and humanitarianism with which donations are given.

Organization

Botsford Hospital: The main hospital campus is located on Grand River Avenue, just west of Eight Mile Road. The main campus includes the hospital, which offers both inpatient and outpatient services and diagnostic testing, numerous physician offices, an outpatient pharmacy and a consumer health library. Botsford Hospital also has a variety of offsite locations in neighboring communities.

Botsford Health Care: Botsford Hospital is part of Botsford Health Care. Botsford Health Care comprises the hospital, the Botsford Commons Senior Community, Community Emergency Medical Service, The Botsford Foundation and Botsford physician offices.
