Annual Physical Exams

Doctor visits for an annual well-child check up are important. Seeing a physician only when a child is sick is not adequate. Well-child visits can reveal problems and reinforces health behaviors.

Booster Shots

Updating immunizations is a very important part of your child's health.

School Physical Exams

Most school districts require a physical upon entering kindergarten and confirmation of immunization thereafter.

Sports Physical Exam

Most organized school sports require a physical. Special \$15 rate.

Camp Physical Exam

Most over-night camps require a physical examination before attending. Special \$15 rate.
